Ilton Rodrigues de Macedo () () @gmail.com,

Maicon Bessa de Queiroz () () @hotmail.com,

residents of Brazil, São Paulo, on Estrada do Itaim , , Jardim Izildinha, Guarulhos - CEP: , in what is known as the urban area of the city of Guarulhos, where the Várzeas do Tietê Linear Park Project is being developed in São Paulo Brazil, herein represented by the aforementioned individuals, hereby come forward to state our claim before the IDB, seeking its support for the State's government project conducted by the DAAE (Autonomous Water and Electricity Department), since we fear we will be adversely impacted by the Várzeas do Tietê Linear Park Project, given the lack of transparency of said project regarding some potential damages, including impact on the environment, [and] relocation. As claimants we refuse to accept the offered housing proposal, given our right under adverse possession rules and we want the DAAE to offer alternatives, as ruled in the Relocation Master Plan (Relocation Master Plan BR-L1216), as I was informed on the telephone with the IDB (61.33174200), by assistant Clara Chaves, on July 7, 2016, at 12:30 pm, who advised me to send a letter to MICI because the DAAE will start the evictions pursuant to decree number 59531/13 dated September 13, 2013 on next Tuesday, August 2, 2016. We therefore request that this claim be handled urgently.

Our signatures are below for more clarity.
